

PABLO PINEDA BEING DIFFERENT IS A VALUE

"That was the one thing you could do that I never could. And you never could teach me." "How does he hold them all?" the Namer said. "Herbal, you were here when Sparrowhawk and Thorion were challenged by Irioth. His gift was as great as Thorion's, I think. He used it to use men, to control them wholly. Is that what Thorion does?" "To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch. thundered; she fell flat on the ground. Irian looked from one to the other. "What if he doesn't want to drink?" Then he was back in himself, with the fierce hurt in his arm and hip and head, sick and dizzy in a scared cow. "Quite soon now, I think. Can you hold the Gates open, my dear?" He watched the staff that stood on the shining floor. In a little while he saw it quiver very. Note on dates: Many islands have their own local count of years. The most widely used dating say; and if they are lying, does that not prove that what they say is true? "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have. "I should go," she said. "I can walk in the Grove, but not live there. It isn't my - my place. And the Master Chanter said I did harm by being here." Ember was on the dock to meet him. Lame and very thin, he came to her and took her hands, but he could not lift his face to hers. He said, "I have too many deaths on my heart, Elehal." said. "In the west," he said. "You ought to have your proper name day, your feast and dancing, like any young 'un," the witch said. "It's at daybreak a name should be given. And then there ought to be music and feasting and all. Not sneaking about at night and no one knowing..." "Very well," said the Herbal, with his patient, troubled look; and he went aside a little, and knelt to look at some small plant or fungus on the forest floor. His father had named him Banner of War. He had come west, leaving all he knew behind him, and had. "Didn't know you were after him. I've been after him a long time. He fooled me." The next day she said, "I'm going to sit under the trees." Not sure what was expected of him, he followed her at a distance till they came to the inmost part of the Grove where all the trees were of the same kind, nameless yet each with its own name. When she sat down on the soft leaf mold between the roots of a big old tree, he found himself a place not far away to sit; and as she watched and listened and was still, he watched and listened and was still. So they did for several days. Then one morning, in rebellious mood, he stayed by the stream while Ember walked into the Grove. She did not look back. She dumped a kettleful of steaming water into the bath. "He has ivory," she said. "Tell him ivory it has to be. Out there ten days starving in the cold to cure his beasts! San's got nothing but copper, but Alder can pay you in ivory. I'm sorry if I'm meddling in your business. Sir." She flung out the door with two buckets, going to the pump. She would not use the stream water for anything at all, these days. She was wise, and kind. Why had he lived so long among those who were not kind? "Change, change," said the Patterner. Transformation. ". The music started up, distant, blurred by wind and the murmur of the river running. They nodded. up from Gont Port, last spring, to lay a floor in the old house. They had had one of their. In about 650, the sisters Elehal and Yahan of Roke, Medra the Finder, and other people of the Hand founded a school on Roke as a center where they might gather and share knowledge, clarify the disciplines, and exert ethical control over the practices of wizardry. With the Hand as its agent on other islands, the school's reputation and influence grew rapidly. The mage Teriel of Havnor, perceiving the school as a threat to the uncontrolled individual power of the mages, came with a great fleet to destroy it. He was destroyed, and his fleet scattered. Seeing I had made a mistake, although I did not know what kind of mistake, I muttered. In the west of Havnor, among hills forested with oak and chestnut, is the town of Glade. A while ago, the rich man of that town was a merchant called Golden. Diamond sat upright and still. He had been getting some of his father's height and girth lately. were filled with displays, I had had a cloudy sky over me; how, then, did it happen that now, a. "When I said that. . ." and talked to her for a minute, saying something in her big, delicate ear and rubbing her topknot. Gelluk had never met a man he feared. A few wizards had crossed his path strong enough to make him wary of them, but he

had never known one with skill and power equal to his own..freely, as if they were not material..It looked very old. It had been rebuilt and rebuilt again, but not for a long time. Nor had anyone lived in it for a long time, from the feel of it. But it was a pleasant feeling, as if those who had slept there had slept peacefully. As for decrepit walls, mice, cobwebs, and scant furniture, none of that was new to Irian. She found a bald broom and swept out a bit. She unrolled her blanket on the plank bed. She found a cracked pitcher in a skew-doored cabinet and filled it with water from the stream that ran clear and quiet ten steps from the door. She did these things in a kind of trance, and having done them, sat down in the grass with her back against the house wall, which held the heat of the sun, and fell asleep.. "Oh, sir," she said, and he knew he had done wrong..shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining.. "Tonight," Dragonfly said. For a long time that was all there was. The pain came and went, the darkness remained. Once it lightened a little into a twilight in which he could dimly see. He saw a slope running down from where he lay towards a wall of stones, across which was darkness again. But he could not get up to walk to the wall, and presently the pain came back very sharp in his arm and hip and head. Then the darkness came around him, and then nothing..master say to the helmsman, "Keep her south tonight so we don't raise Roke.."back home and a lot of things had changed. Sex. Money. Transit. It circled, searching and searching, and flew back as it had come..their magic in prison cells, to gain nothing. There's no way to use power for good.."She had no wish to explore for herself. The peacefulness of the place called for stillness, watching, listening; and she knew how tricky the paths were, and that the Grove was, as the Patterner put it, "bigger inside than outside". She sat down in a patch of sun-dappled shade and watched the shadows of the leaves play across the ground. The oakmast was deep; though she had never seen wild swine in the wood, she saw their tracks here. For a moment she caught the scent of a fox. Her thoughts moved as quietly and easily as the breeze moved in the warm light..there and he did not want to be there with them. She stood up and after a moment walked out of the stableyard, off across the hill, on the path that went around it halfway up. One of the dogs, her favorite, a big, ugly, heavy-headed hound, followed her. She stopped on the slope above the marshy spring where Rose had named her ten years ago. She stood there; the dog sat down beside her and looked up at her face. No thought was clear in her mind, but words repeated themselves: I could go to Roke and find out who I am..It's a word in the language of the Allking. His own name in his own language.
