

UNGARN NACH DEM FRIEDENSSCHLUSS

In the hall that served the two ground-floor apartments, they encountered Rena Moller, the elderly woman who lived in the unit across from theirs. She was polishing the dark wood of her front door with lemon oil, a sure sign that her son and his family were coming to dinner. "He's crafty, you say. Can you use him?" Judging by his great pleasure in learning, Barty didn't feel robbed of anything. To him, the world was an orange of infinite layers, which he peeled and savored with increasing delight. The ghost cop was forty feet behind him, beyond ranks of other pedestrians, every one of whom might as well have been faceless now, smooth and featureless from brow to chin, because suddenly Junior could see no countenance other than that of the walking dead man. The haunting visage bobbed up and down as the grim spirit strode along, vanishing and reappearing and then vanishing again among all the bobbing and swaying heads of the intervening multitudes. Perhaps his sister intuited what Edom was about to say, because she didn't let him get started. For each of them, Agnes put one scoop of vanilla ice cream in a tall glass of root beer, and after changing quickly into their pajamas, they sat together in Barty's bed, enjoying their treats, while she read aloud the last sixty pages of Starman Jones. When he got no response, he wedged the toe of his right loafer under the guy's chest and, with some effort, rolled him onto his back. Against the backdrop of granite monuments, Kaitlin hulked like a moldering presence from Beyond, risen out of a rotting box to take vengeance on the living. At worst, Vanadium might begin to wonder if Junior had a link to Seraphim, might uncover the physical-therapy connection, and in his paranoia, might erroneously conclude that Junior had something to do with her traffic accident. That was nuts, of course, but the detective was evidently not a rational man. Given a child-size harmonica, he extemporized simplified versions of songs he heard on the radio. The Beatles' "All You Need Is Love." The Box Tops' "The Letter." Stevie Wonder's "I Was Made to Love Her." After hearing a tune once, Barty could play a recognizable rendition. Junior must have shouted shut up more than he realized, because the neighbors began to pound on the wall to silence him. "Your mother's an artist. Besides, you wouldn't want to put poor Mrs. Ornwalt out of a job, would you?" Sitting on a stool at the counter, he ordered a cheeseburger, coleslaw, french fries, and a cherry Coke. During the past few hours, he had changed his life again, as dramatically as he had changed it on that fire tower almost three years ago. Reminding himself that fortune favored the persistent and that he must always look for the bright side, Junior began with the city itself and with those whose surnames were Bartholomew. This was a manageable number. The phone rang at 3:20 in the afternoon, just after he switched off the radio in disgust. Sitting in the breakfast nook, the Oakland telephone directory open in front of him, he almost said, Find the father, kill the son, instead of, "Hello." Clearly, she had learned nothing from her reading. No sincere and thoughtful student of Zedd would be as sorely lacking in self-control as Frieda Bliss. He managed to hold the towel around his foot, but it grew dark red and disgustingly mushy. Almost as an afterthought, as he was leaving, he tucked the brochure for "This Momentous Day" into a jacket pocket. There would be amusement value in hearing a group of cutting-edge young artists analyze Celestina's greeting-card images. Besides, as the Academy of Art College was the premier school of its type on the West Coast, a few of the partygoers might actually know her and be able to give him some valuable background. The party raged in a cavernous loft on the third-and top-floor of a converted industrial building, the communal residence and studio of a group of artists who believed that art, sex, and politics were the three hammers of violent revolution, or something like that. The sight of the heavily bandaged face apparently pressed all of the compassion buttons in the reverend, because he broke out of his paralytic shock and started forward-before he registered the weapon. Around the dinner table, the adults applauded, but the tougher audience squinted at the ceiling, toward which she believed the coin had arced, then at the table, where it ought to have fallen among the water glasses or in her creamed corn. At last she looked at Tom and said, "Not magic." Turning, turning, turning, the mysterious warning in his mind: The spirit of Bartholomew ... will find you ... and mete out the terrible judgment that you deserve. Because of his blindness and his intellectual gifts, Barty was home schooled; besides, no teacher was a match for his autodidactic skills, nor could anyone possibly inspire in him a greater thirst for knowledge than the one with which he had been born. Angel went to this same informal classroom, and her sole fellow student was also her teacher. They aced the periodic equivalency tests that the law required. Their constant companionship seemed to be all play, yet was filled with constant learning, too. She'd crossed herself during Edom's rant about the Tri-State Tornado of 1925. Then, she'd been warding off bad fortune; now, with a smile and a look of wonder, she was acknowledging the grace of God, which, according to the cards, had been settled generously on Bartholomew. A shiver of awe traveled Celestina's spine, because she knew what the physician's next words would surely be. Raising his revolver, Tom squeezed off two shots, but the gun didn't discharge. In spite of its dazzle and power and comfort, however, the car was not able to lift his spirits as he cruised the hills of the city. Somewhere along these darkly glistening streets, in these houses and high-rises clinging to steep slopes awaiting seismic sundering, the boy was sheltered: half Negro, half white, full doom to Junior Cain. He waited for Otter to nod, but Otter stood motionless. The moment he had seen the building in which Nolly maintained an office-an aged three-story brick structure in the North Beach district, a seedy strip club occupying the ground floor-Junior knew he'd found the breed of snoop he needed. The detective was at the top of six flights of narrow stairs-no elevator-at the end of a dreary hallway with worn linoleum and with walls mottled by stains of an origin best left unconsidered. The air smelled of cheap disinfectant, stale cigarette smoke, stale beer, and dead hopes. "Does my dad like Christmas?" Barty asked, sitting on the grave grass in front of the headstone. Ever the romantic, he wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight. He was about to go

in search of the canapes when he half heard one of the guests mention Bartholomew to the reverend's daughter. Only the name rang on his ear, not the words that surrounded it..Junior didn't know much about guns. He didn't approve of them; he had never owned one..The paramedic snatched the oxygen feed from his patient's nose and quickly elevated his head, providing a purge towel to catch the thin ejecta..The stump was capped at the end of the internal cuneiform, depriving Junior of everything from the metatarsal to the tip of the toe. He was delighted with this result, because successful reattachment would have been a calamity..Grace White was petite, and Paul wasn't. Otherwise he might not have been able to halt her determined rush toward her husband, might not have been able to scoop her off her feet and, carrying her in his arms, spirit her to safety..Then by ambulance to the hospital, whisked into surgery, and for a while, blessed unconsciousness..He hurried the length of the diner, pushing past waitresses, checking out all three of the possibilities, but of course, none of them was the dead detective--or anyone else Junior had ever seen before. He was looking for--what?--a ghost, but vengeful ghosts didn't sit down to a meat-loaf lunch in the middle of a hauntin.No one could put him in prison because of his dreams. "I can't remember. Those are the worst, when you're not able to remember them--don't you think? They're always so silly when you can recall the details. When you draw a blank ... they seem more threatening."..During the past ten days, he'd proved that he was clever, bold, with exceptional inner resources. He needed to tap his deep well of strength and resolve now, more than ever. He'd been through far too much, accomplished too much, to be brought down by mere biology..Junior joined the throngs, although he had no gift list or feeling for the season. He just needed to get out of his apartment, because he was convinced that the phantom singer would soon serenade him again..Dishes dried and put away, Jacob retired to the living room and settled contentedly into an armchair, where he would probably become so enthralled with his new book of dam disasters that he would forget to make luncheon sandwiches until Barty and Angel rescued him from the flooded streets of some dismally unfortunate town..In the time of the kings, mages gathered in the court of Enlad and later in the court of Havnor to counsel the king and take counsel together, using their arts to pursue goals they agreed were good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers one against the other in duels and combats of sorcery, careless of the evils they did, or worse than careless. Plagues and famines, the failure of springs of water, summers with no rain and years with no summer, the birth of sickly and monstrous young to sheep and cattle, the birth of sickly and monstrous children to the people of the isles--all these things were charged to the practices of wizards and witches, and all too often rightly so..The spectral singer didn't exhibit her blood-and-bone sisters' reluctance to pursue her man..She switched on the windshield wipers. Repeatedly, in the arc of cleared glass, the graveyard was revealed in sharp detail, and yet the place remained less than fully familiar to her. Her whole world had been changed by Barty's dry walk in wet weather..gob of mucus in his throat. His face contorted with a misery that he did not have to fake, and he was astonished to feel tears spring to his eyes..When she went upstairs at 2:10 in the morning, she found the boy fast asleep in the soft lamplight, Tunnel in the Sky at his side..For breakfast, he avoided sugar. He ate cold roast beef and drank milk laced with a double shot of brandy..Tommy James and the Shondells, good American boys, had a record farther down the charts--"Hanky Panky"--that Junior felt was better than the Beatles' tune. The failure of his countrymen to support homegrown talent aggravated him. The nation seemed eager to surrender its culture to foreigners..Agnes had lifted him to this perch. Now she smoothed his hair, straightened his shirt, and retied his loosened shoelaces, finding it even harder than she had expected to say what needed to be said. She thought she might require Dr. Chan's presence, after all.. "Anyway, something clicked in me on the roller coaster, and I grasped a new angle of approach to the problem. I've figured out that I can walk in the idea of sight, sort of sharing the vision of another me, in another reality, without actually going there." He smiled into her astonishment. "So what do you say about that?"..Jabbing his forefinger at each of the remaining treats, Barty said, "Pie, pie."..Delighted to be dating someone who lived neck-deep in culture especially after two months with Tammy Bean, the money maiden. Junior was surprised that he didn't score with Frieda on the first date. He was usually irresistible even to women who weren't sluts.. "Tragic. Her string's been cut too soon. Her music's ended prematurely," Junior said, feeling confident enough to dish a serving of the maniac cop's half-baked theory of life back to him. "There's a discord in he universe now, Detective. No one can know how the vibrations of that discord will come to affect you, me, all of us."..Having ridden from the church to the cemetery with Hanna, his housekeeper, Paul chose to walk home. The distance between Perri's new bed and her old was only three miles, and the afternoon mild.. "Oh, that's me, all right. I'm on the FBI's most-wanted list for criminal pie jostling."..Urgency gripped the paramedics. The rescuers' equipment and the pieces of the car door were dragged out of the way to make a path for a gurney, its wheels clattering across pavement littered with debris..Glorying in the cloudless day and the warmer than usual weather, he drove seventy miles north, through phalanxes of evergreens that marched down the steep hills to the scenic coast. All the way, he monitored the traffic in his rearview mirror. No one followed him..With the successful consumption of the burger and with the addition of the third Sklent to his collection, Junior felt more upbeat than he'd been in quite a while. Contributing to his better mood was the fact that he hadn't heard the phantom singer in longer than three months, since the library in July..Later, at home in bed, after Nolly proved the value of oysters, he and Kathleen lay holding hands. Following a companionable silence, he said, "It's a mystery."..As it turned out, Seraphim was a virgin. This thrilled Junior. He was inflamed also by the thought of ravishing her in her parents' house ... an by the kinky fact that their house was a parsonage..Because, since childhood, Jacob had been drawn to stories and images of doom, to catastrophe on both the personal and the planetary scale--from theater fires to all-out nuclear war--he had a flamboyant imagination second to none and a colorful if peculiar intellectual life. For him, therefore, the most difficult part of learning card manipulation had been coping with the tedium of practice, but for years he had applied himself diligently, motivated by his love and admiration for his sister,

Agnes..Junior glanced over his shoulder even as Celestina turned and fled. He caught only a glimpse of her disappearing into the inner hallway..At the end of the famous sermon, Celestina's father had wished to all well-meaning people that into their lives should fall a rain of benign effects from the kind and selfless actions of countless Bartholomews whom they would never meet. And he assures those who are selfish or envious or lacking in compassion, or who in fact commit acts of great evil, that their deeds will return to them, magnified beyond imagining, for they are at war with the purpose of life. If the spirit of Bartholomew cannot enter their hearts and change them, then it will find them and mete out the terrible judgment they deserve..The infant's smile was so captivating and his puzzlement so comically earnest that both expressions worked on Agnes's misery as surely as yeast leavens dough. Her bitter tears turned sweet..While they waited for the room-service waiter to arrive, Tom got from Paul a detailed report of Enoch Cain's attack on the parsonage. He had heard most of it from friends in the state-police homicide division, which was assisting the Spruce Hills authorities. But Paul's account was more vivid. The ferocity of the assault convinced Tom that whatever the killer's twisted motives might be, Celestina and her mother-and not least of all Angel-were in danger as long as Cain roamed free. Perhaps as long as he lived.. "That's just ... an old joke," she heard herself saying, as from a distance. "You didn't really walk between the drops?". Aside from purchasing the T S. Eliot book, which he hadn't found time to read, Junior was only peripherally aware of current events, because they were, after all, current, while he tried always to focus on the future. The news of the day was but a faint background music to him, like a song on a radio in another apartment..around an anemone's mouth, poised to snare, lazily but relentlessly, any passing prize..PAUL DAMASCUS WAS walking the northern coast of California: Point Reyes Station to Tomales, to Bodega Bay, on to Stewarts Point, Gualala, and Mendocino. Some days he put in as little as ten miles, and other days he traveled more than thirty..to believe that any man with such a hard gut slung over his belt, with a bull neck.As though giving voice to her worst fear had made it come true, Agnes was seized by a contraction so painful that she cried out and clutched the paramedic's hands tightly enough to make him wince. She felt a peculiar swelling within, then an awful looseness, pressure followed at once by release..An elderly Negro gentleman answered the door. His hair was such a pure white that in contrast to his plum-dark skin, it appeared to glow like a nimbus around his head. With his equally radiant goatee, his kindly features, and his compelling black eyes, he seemed to have stepped out of a movie about a jazz musician who, having died, was on earth once more as someone's angelic guardian..could spring the new deadbolts as easily as the old. Therefore, on the interior of the front and back doors, Junior added sliding bolts, which couldn't be picked from outside..Even when he saw no cop cadaver, no ghoulish grin, no two-bit eyes, Junior was not immediately relieved. Warily, he circled the car, expecting to find the detective crouching and poised to spring..Alone with Paul, as he stood abashed, she removed her blouse and bra and, with arms crossed over her breasts, revealed to him her savaged back. Whereas her father had used open-hand slaps and hard fists to teach his twin sons the lessons of God, he preferred canes and lashes as the instruments of education for his daughter, because he believed that his direct touch might have invited sin. Scars disfigured Agnes from shoulders to buttocks, pale scars and others dark, crosshatched and whorled..The window was French with small panes, so Celestina couldn't simply break the glass and climb out..The Selective Service physician quickly declared Junior to be maimed and unfit. Quietly but with passion, Junior pleaded for a chance to prove his value to the armed forces, but the examiner was unmoved by patriotism, interested only in keeping the cattle line of other potential draftees moving past him at a steady pace..As she clambered through the open door into Celestina's lap, the girl said, "Uncle Wally gave me an Oreo." The detective was driven by this string theory of his, and maybe he also saw visions or even heard voices, like Joan of Arc. Joan of Arc with out beauty or grace, Joan of Arc with a service revolver and the authority to.Outside, he discovered that some worthless criminal wretch had broken into his Suburban during the night. The suitcase and Book-of-the-Month selections were gone. The creep even swiped the Kleenex, the chewing gum, and the breath mints from the glove, compartment..He preferred to venture inside the house while some lights remained on. He didn't want to be reduced to creeping stealthily in the dark through strange rooms: The very idea filled his guts with shiver chasing shiver..Nothing in his reading offered a satisfactory explanation for what had been happening to him. None of the women filled the hole in his heart, and all of the Bartholomews were harmless. Only the needlepoint offered any satisfaction, but though Junior was proud of his craftsmanship, he knew that a grown man couldn't find fulfillment in stitchery alone.. "Phimie said the creep thought it was funny, but using Daddy's voice as background music also ... well, aroused him, maybe because it further humiliated her and because he knew it would humiliate our father. But we never told Daddy that part of it. Neither of us saw any useful reason for telling him." He squirmed deep under the covers, clamped a plump pillow over his head to muffle the singing, and chanted, "Find the father, kill the son," until at last he fell exhausted into sleep..Paul in the guest room again. Sweeping a bedside lamp to the floor, lifting the nightstand..Even as this news pleased Junior, it also saddened him. He was not merely interring a lovely wife, but also his first child. He was burying his family..A delay of a few hours, before getting her under a physician's care, might still be risky. But so was forcing her into a local hospital to endure the mortification she desperately wanted to avoid..For the first time since walking to La Jolla to meet Jonas Salk, Paul planned a journey with a specific purpose..Her hands were locked together in her lap, gripped so tightly for so long that the muscles in her forearms ached. "What's wrong?". He pressed his right ear to the door, held his breath, heard nothing, and addressed the top lock first. Quietly, he slid the thin pick of the lock-release gun into the key channel, under the pin tumblers..Instinctively, he knew he should not give massages to Negroes. He sensed that somehow he would be physically or morally polluted by this contact..He fished the sound-suppressor from a jacket pocket, drew the pistol from his shoulder holster, and began to screw the former to the latter. He misthreaded it at first because his hands had begun to shake..Neddy favored a quick greeting, two curt pumps, but Junior held fast after the handshake was over. He

didn't grind the musician's knuckles, nothing so crude, just held on pleasantly but firmly. His intention was to confuse and further rattle the man, taking advantage of his obvious dislike of having his personal space encroached upon, in the hope that Neddy would reveal why he'd been watching Junior so intently from across the room. THE SUN ROSE above clouds, above fog, and with the gray day came a silver drizzle. The city was lanced by needles of rain, and filth drained from it, swelling the gutters with a poisonous flood. She was a duplicitous bitch, too. After coming on to him, after teasing a reaction out of him, she had run off and gossiped about him as though he had instigated the seduction. Worse, to make herself feel important, she had told the police her skewed version, surely with much colorful embellishment. Trembling and sweating, he turned his back to the view window. As he retreated from the creche, he expected the oppressive pall of fear to lift, but it grew heavier. Deciduous black oaks lined the street. All were leafless at this time of year, gnarled limbs clawing at the moon. playing cards, Agnes fixated on Deed's blond bangs, which curled across his broad brow. Hard experience had taught him, however, that killing someone he knew, while occasionally necessary, didn't release stress. Or if it did briefly release stress, then unforeseen consequences always contributed to even worse future stress. Thus began the first day of the last weekend of their old lives. Maria visited on Saturday, sitting in the kitchen, embroidering the collar and cuffs of a blouse, while Agnes baked pies. MONDAY MORNING, far above Joe Lampion's grave, the translucent blue California sky shed a rain of light so pure and clear that the world seemed to have been washed clean of all its stains. He'd been invited to a Christmas Eve celebration with a satanic theme, but he hadn't intended to go. The party was not being thrown by real Satanists, which might have been interesting, but by a group of young artists, all nonbelievers, who shared a wry sense of humor. "Yes. More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact-which might suggest that human will, even subconsciously expressed, shapes reality." Agnes discovered that watching her child be totally consumed by a new enthusiasm was an unparalleled delight. Through Barty, she had a tantalizing sense of what her own childhood might have been like if her father had allowed her to have one, and at times, listening to the boy exclaim about the space-faring Stone family or about the mysteries of Mars, she discovered that at least some part of a child still lived within her, untouched by either cruelty or time. Tom was alone. The place should be silent. Hanna Rey, the housekeeper, wasn't scheduled to arrive until ten o'clock. Agnes was so weary, her eyes so sore and grainy, that even this soft radiance stung. She almost closed her eyes and gave herself to sleep again, that little brother of Death, which was now her only solace. What she saw in the lamplight, however, compelled her attention. He assumed that she hadn't phoned the police to make a formal report. No need to go out of her way to slander Junior when Thomas Vanadium had been prowling the hospital at all hours of the day and night, ready to lend an ear to any falsehood about him, as long as it made him appear to be a sleazeball and a wife killer. At the open kitchen door, arms laden with a stack of four bakery boxes, her mother said, "Will you get those last four pies for me there on the table? And don't jostle them, dear." "And to the north of us," Agnes said, drawing him out, "Janey Carter went off to college last year, and she's their only child." "Go home. Sleep," he said. "You'll be no help to your sister if you wind up a patient here yourself." It occurred to her that the knave had come, as foretold by the cards on that night long ago. She had expected the knave to be a man with sharp eyes and a wicked heart, but the curse was cancer and not a man at all. Junior phoned a twenty-four-hour-a-day locksmith and paid premium post midnight rates to have the double deadbolts re-keyed. The telephone rang, putting an end to their chat, but Agnes would remember the substance of it later that year, on the day before Christmas, when Barty took a walk in the rain and changed forever his. Maria said nothing, working busily, but Agnes recognized that special silence in which difficult words were sought and laboriously stitched together. Although first-rate, the surgical team wasn't able to reattach the badly torn extremity. Tissue damage was too extensive to permit delicate bone, nerve, and blood-vessel repair. Chase after her on foot. Shoot her in the car. Maybe. He'd have five rounds left if he used one on the man, four on Bartholomew. It was then that village sorcery, and above all women's witchery, came into the ill repute that has clung to it since. Witches paid dearly for practicing the arts they thought of as their own. The care of pregnant beasts and women, birthing, teaching the songs and rites, the fertility and order of field and garden, the building and care of the house and its furniture, the mining of ores and metals-these great things had always been in the charge of women. A rich lore of spells and charms to ensure the good outcome of such undertakings was shared among the witches. But when things went wrong at the birth, or in the field, that would be the witches' fault. And things went wrong more often than right, with the wizards warring, using poisons and curses recklessly to gain immediate advantage without thought for what followed after. They brought drought and storm, blights and fires and sicknesses across the land, and the village witch was punished for them. She didn't know why her charm of healing caused the wound to gangrene, why the child she brought into the world was imbecile, why her blessing seemed to burn the seed in the furrows and blight the apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was there, right there in the village or the town, not off in the warlord's castle or fort, not protected by armed men and spells of defense. Sorcerers and witches were drowned in the poisoned wells, burned in the withered fields, buried alive to make the dead earth rich again. His waitress was a cutie. She flirted with him, and he knew he could have her if he wanted. In reality, it had been a homely device, a mere box. In memory, it seemed ominous, charged with the evil

portent of a nuclear bomb..Wally-Dr. Walter Lipscomb, who delivered Angel and who became her godfather-never worried when the girl seemed to be developing too slowly, counseling that every child was an individual, with his or her particular learning pace. Wally's double specialty--obstetrics and pediatrics-gave him credibility, of course, but Celestina had worried, anyway..Through tears, that night, she asked him if the commitment he was making didn't frighten him..Celestina circled him, half carrying but also half dragging the chair, either because her nerves were still ringing and her arms were weak--or because she was faking weakness in the hope of luring him to a reckless response. Junior circled her while she rounded oil him frantically trying to deal with the pistol without taking his eyes off his adversary..Besides, he'd 'noticed a tendency among dopers to get maudlin, whereupon they sank into a confessional mood, seeking peace through rambling self-analysis and self-revelation. Junior was too private a person to behave in such a fashion. Furthermore, if drugs ever put him in a confessional mood, the consequence might be electrocution or poison gas, or lethal injection, depending on the jurisdiction and the year in which he fell into an unbosoming frame of mind..As Tom reached Celestina, she said, "Shots." She said, "Gunshots." She held the receiver in one hand and pulled at her hair with the other, as if with the administration of a little pain, she might wake up from this nightmare. She said, "He's in Oregon."Paul watched as Barty hopped down from his chair and crossed the busy kitchen in a straight line to the wall phone, without one hesitant move..This consequence of rape, the baby, was less baby to Celestina than cancer, a malignancy excised rather than a life delivered. She had been no more impelled to study the child than she would have been, charmed to examine the glistening gnarls and oozing convolutions of a freshly plucked tumor. Consequently, she could remember nothing of its squinched face..face looked familiar, and he sensed that he had seen it before in a disquieting context, although the man's identity eluded him..Phimie's stubbornly high blood pressure, the presence of protein in her urine, and other symptoms indicated her preeclampsia wasn't a recent development; she was at increased risk of eclampsia. Her hypertension was gradually coming under control-but only by resort to more aggressive drug therapy than the physician preferred to use..Without the pillow, she wouldn't have been able to lift her head to look toward the back of the ambulance.
